

October 4, 2011

Dear Physician,

The RSV prophylaxis season is starting soon so I would like to take this opportunity to inform you of the various Synagis Clinic sites Pharmacare Hawaii has available for your patients. This season we have expanded our services to provide convenient locations for the children of your practice to receive Synagis injections.

Pharmacare Hawaii’s Synagis Program now includes seven locations on Oahu, two locations on the Big Island, one location on Maui, and one location on Kauai where Synagis can be administered to your patients. With proper documentation, we will get your patients started quickly and will track and report progress to you on a regular basis throughout the RSV season.
