MEDICAL HOME

Concerns about child's development or behavior

Age 3-5 years:
Refer to DOE if child may be eligible special education

REFERRAL to DOE Preschool Special Education

DOE Request for Evaluation (Form 101)

Fax, mail, or hand-deliver Form 101 to the Home School (where a child would enter public kindergarten). Submit information (e.g., current evaluations, medical reports, therapy reports, observations, parent concerns, etc.) with the request to support child's developmental levels and needs.

SPECIAL EDUCATION SERVICES based on the student's unique needs

Special education = specially designed instruction to meet needs of a student with a disability.

Related services include:

- Transportation
- Supportive services to assist student with a disability to benefit from special education, including: speech-language pathology, audiology, psychological services, physical & occupational therapy, recreation, counseling, orientation and mobility services.
- School health services
- Social work services in schools
- Parent counseling and training

Age 3-5 years:
Refer to PDSP
-For further screening/evaluation
-If more information is needed to support DOE referral
-If family needs assistance/support for DOE evaluation process
